

SKILLS:

<u>Software/ Languages</u>	<u>Platforms/ Operating Systems</u>	<u>Services/ Consulting</u>
<ul style="list-style-type: none"> • JavaScript, React, Redux • Node.js (both web and console apps) • webpack/bundling frameworks • Relational Databases, SQL, MySQL/MariaDB, data mining and reporting • MS Access, VBA scripting • Perl, PHP • Also experience with a variety of legacy languages/frameworks 	<ul style="list-style-type: none"> • Linux (various distributions) • Microsoft Windows (All client and server versions) • MacOS (all versions) • Content Management Systems (WordPress, Drupal, etc) • Microsoft Exchange • OpenVPN • Ubiquity Unifi wireless • Able to learn proprietary systems quickly 	<ul style="list-style-type: none"> • Software Application and Website Development • Database Programming • Technology Maintenance and Planning • Data recovery • Network installation and configuration • Equipment procurement/installation • IT consulting to meet any technology need

PREVIOUS EXPERIENCE:

Over the past 19 years I've worked with a variety of clients, both for-profit and non-profit, in various technological capacities to install/configure/maintain networks and server environments, build custom applications, provide IT management, and help plan for the future.

I'm adaptive to client environments and always try to provide services in a way that fosters good long-term relationships. Learning new skills quickly, creativity, and efficiency are important aspects of the skills I bring to every situation. Solving problems, rather than pushing products or services, are key to successful and healthy relationships.

EDUCATION:

BA/BS in Computer Science from Covenant College; Graduated in May 2000
 SAT score: 1470
 Other Concentrations: Marketing, Small Business
 Major GPA: 3.9 Cumulative GPA: 3.4

AWARDS:

Computer Science Department Scholarship
Maclellan Scholarship - the highest scholarship Covenant College offers.
